COMPANY INTRODUCTION

Over 20 years of hand-made perfection.

Holding secret recipes passed down through generations, we are a family-run manufacturer that places culture and heritage at its core.

Quan's Food Supply was founded in Birkenhead in 2003 and has grown into one of the largest spring roll suppliers to Asian supermarkets, wholesalers, caterers and restaurants across the North-West of England.

Every spring roll and samosa we sell is wrapped by hand at our Wirral site. Fillings are cooked to a minimum core temperature of 75°C, blast-chilled, then frozen at -18°C to -23°C and delivered in temperature-controlled vehicles. Nothing leaves the building that we would not serve at our own table.

We share the Quan's family touch by crafting each product by hand to ensure the highest quality — but never forgetting the most important ingredient of all: the human touch from the heart, which infuses the soul into everything we produce.

The range runs from retail packets built for the freezer aisle to 50-piece catering formats and printed retail-ready boxes. We can build mixed pallets to order, and we deliver frozen throughout the UK, with export documentation for the Republic of Ireland arranged at the point of order.

HOW WE WORK

Made in Britain

Every product hand-made at Unit 60 Appin Road, Argyle Industrial Estate, Birkenhead — a family business since 2003.

HACCP & EHO

Manufactured under a full HACCP food-safety management system in line with Regulation EC 852/2004 and The Food Safety and Hygiene (England) Regulations 2013. Site inspected by the local Environmental Health Authority.

Registered Vegan

Vegetable Spring Rolls and Vegetable Chop Suey Rolls carry the Vegan trademark.

Full traceability

Batch traceability on all raw materials and finished product, with recorded country of origin for every ingredient and a documented recall procedure.

Allergen control

Documented allergen policy covering segregated storage, dedicated cleaning and staff training. Declarations printed on every pack.

Responsible packaging

BRC-certified food-contact packaging. Printed film bags recyclable with carrier bags; soup tubs reusable, recyclable, microwave- and freezer-safe.

Made by hand, the way it has always been done

There is no wrapping machine on our floor. Every roll and every samosa is folded by hand by people who have been doing it for years — which is why our pastry blisters the way it does and why the filling stays where it should.

Fillings are cooked to a minimum core temperature of 75°C, blast-chilled, and frozen within the hour. Best-before dates and batch codes are printed on every pack, and we hold recorded country of origin for every ingredient we buy.
